

TUN

Domes

Domes

TUN

have excellent experience in the manufacture of dome roofs.

These are constructed in segments with accurate, precision designed tooling.

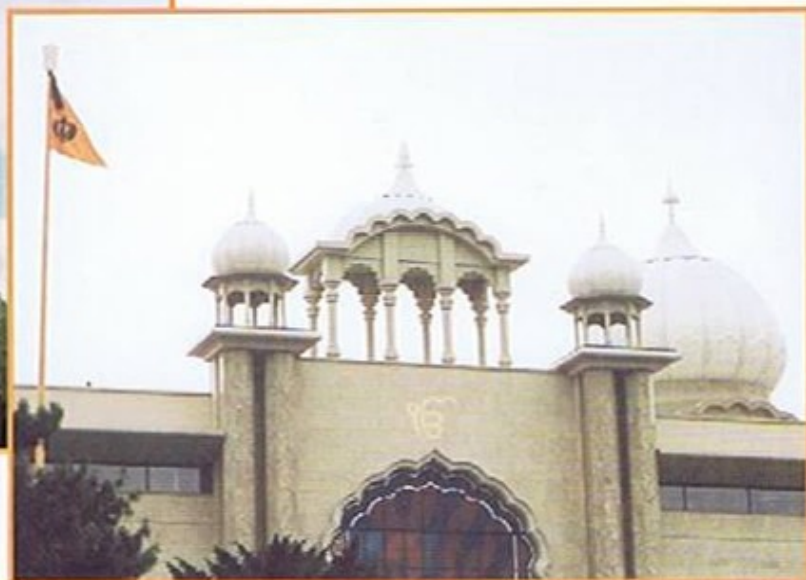

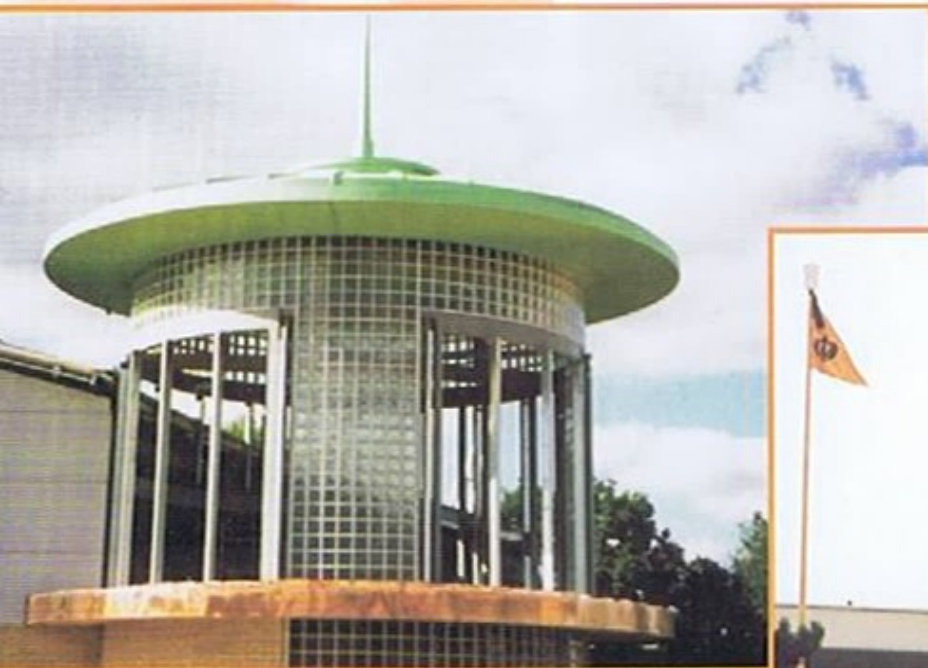

A number of finishes are available ranging from lead and copper to gold. In fact any British Standard or R.A.I. colour can be produced.

Just about any design can be achieved from hemispherical to minaret. They can also be designed and produced from architects' or contractors' drawings - to the highest possible standard

Telford

Chebmsford Leisure Centre

Southall

temples
&
domes

Old architecture recreated with a modern cost-effective material, light in weight and with basic construction. Mainly self-supporting, depending on size with low maintenance in a number of effects and colours.
